## **Methodology**

Based on formal, informal and non-formal education, our methodology will try to stimulate active participation, pro-activity, responsibility and sharing of all participants involved. In this way, we aim to build a diverse and stimulating environment for reflecting, working and learning. It has a horizontal and practical approach and will make use of the following tools:

- face-to-face lessons
- team-building and team-working
- best practice case-studies
- multimedia and web resources
- project based working
- practical laboratory
- brainstorming and focus-group
- role-play
- self and group assessment and evaluation.

## **Follow up**

All participants are expected to maintain access and communication with the rest of their colleagues as well as with the trainer and participate in useful discussions either through the virtual classroom platform and via e-mail. Trainers and company will also be available for any further questions for a period of 5 months after the end of the course, either through e-mail, virtual classroom platform, individual Skype calls, telephone or WhatsApp. By means of all

these tools, we aim to get an effective follow-up, to stimulate peer networking, to keep in touch and to share opinions, experiences and practices for unlimited time.

### **Certifications**

At the end of the course each participant will be awarded with a certificate of attendance, together with the Europass Mobility Certificate. As for this, please check the right procedure in your Country, visiting this website.

Additional and different documents may be easilty released on request.
